Deloitte Touche Tohmatsu Limited (DTTL), Taipei, Taiwan *Jul 2023 – Dec 2023*
System Development UI/ UX

- Using Figma designed 132 UI/UX designing screens and 34 core functions for fintech applications in 4 months
- Redesigned system workflows, interaction logic, and interface layouts to improve usability and overall user experience.
- Led user research and usability testing, achieving a 90% satisfaction rate then original 73%

PROJECTS AND LEADERSHIP

Ascend Membership Analytics Project
Power BI Analyst

- Cleaned, transformed, and validated source data using Power Query to ensure accurate and consistent KPI reporting
- Designed dashboard functionality, developed DAX measures and calculation logic, and optimized dashboard layouts
- Developed KPI dashboards to monitor membership growth, retention trends, and company-level performance

MLB Salary vs. Performance Analytics
Data Analyst

- Analyzed salary and performance data using PCA and regression to identify overvalued and undervalued players
- Applied K-means clustering to identify distinct player archetypes and structural patterns across position groups
- Validated predictive models using cross-validation and error metrics to ensure reliable analytical insights

FleetPride Customer Retention Analytics
Data Analyst & System Development

- Structured sales data, developed calculation logic, and designed dashboard visualizations to improve data clarity
- Analyzed transaction and branch sales data to identify churn trends, high-value accounts, and revenue at risk
- Built an interactive dashboard and CRM system to accelerate sales analysis and enable immediate customer outreach

Peer Tutoring Support System for Rural Students in Taiwan
Project Manager and Team leader

- Designed and trained a custom chatbot tailored to tutoring scenarios, enabling more personalized learning support
- Built a centralized admin portal to manage learning content, matching workflows, and program operations efficiently
- Achieved 3rd place among 38 teams in a year-long university capstone project competition
